SUMMARY

Flutter lead with 6 years in software engineering (Flutter since 2021) shipping production apps on Android, iOS and Web. Frontend lead for web/Flutter at Tijoree Money, owning the client for a corporate cards & payables platform processing **₹400 Cr+** a month for **100+ corporates**, and leading frontend hiring. Previously led Flutter delivery for edtech apps with **10M+ downloads**. Strengths: Melos monorepos, Bitbucket CI/CD, PCI DSS 4.0 payment-page and app security (CSP, SRI, SSL pinning), and GenAI with Vertex AI / Gemini API.

EXPERIENCE

Software Development Engineer II (Frontend Lead – Web/Flutter) · Tijoree Money, Mumbai **Mar 2023 – Present**

- Lead the Flutter client (Android, iOS, Web) for a corporate cards & payables platform used by **100+ corporates** including Reliance, Godrej and TVS Motor, processing **₹400 Cr+** in monthly transaction volume.
- Own frontend hiring for web/Flutter: define the technical bar, run interviews and onboard engineers.
- Architected a Melos monorepo of **6 feature packages** (Virtual Cards, Vendor KYC, Payments, Analytics and more), cutting cross-team code duplication and CI build times by **~25%**.
- Built the release pipeline from day one: 4-stage Bitbucket Pipelines CI/CD (Dev → Stage → Pre-prod → Prod) automating Android and web builds and deployment to AWS S3/CloudFront and Firebase Hosting, with Sentry APM and private source-map uploads.
- Secured payment pages for **PCI DSS 4.0** (req. 6.4.3 / 11.6.1): hardened CSP (strict script-src, nonces/hashes, no unsafe-inline), enforced SRI on third-party scripts, built a payment-page script inventory with authorization and script/header tamper alerting, and remediated VAPT/pen-test findings.
- Protected card and account data in transit and at rest: SSL pinning on mobile, HSTS with TLS 1.2+, AES encryption and masking of sensitive fields, PII scrubbing from logs and Sentry, and secure HttpOnly/SameSite cookies with session timeouts.
- Shipped core fintech modules end to end: GST reconciliation, invoice discounting, BBPS utility payments, vendor verification and multi-level approval workflows.

Software Developer · uFaber Edutech, Mumbai **Feb 2022 – Mar 2023**

- Led Flutter delivery for FluentLife, UPSC Pathshala and IELTS Ninja, a portfolio reaching **10M+ downloads** and **10K+ DAU**.
- Shipped AI chatbots, cloud calling, group activities and live masterclasses using Flutter and Bloc.
- Built serverless features on Firebase + Cloud Functions; used BigQuery and Cloud Logging analysis to drive retention improvements of [ADD METRIC].

Software Developer · Corbel Business Applications, Kochi **Mar 2021 – Feb 2022**

- Built and delivered Abemart (e-commerce) and Progresser (ERP) Flutter apps end to end, from REST API integration to client handoff.

Software Developer · Ingerem India Pvt Ltd, Kochi **Aug 2020 – Mar 2021**

- R&D engineer on a 4-person team building interactive training/operations apps; managed cloud architecture and document systems for secure, scalable deployments.

SKILLS

Mobile & Web: Flutter, Dart, Flutter Web, Android, React, SASS/CSS, Rust
State & Architecture: Riverpod, Bloc, GetX, GoRouter, Melos monorepos, REST APIs, multi-flavor releases
Security & Compliance: CSP, SRI, SSL pinning, HSTS/TLS, AES encryption, VAPT remediation, PCI DSS 4.0, SOC 2, ISO 27001
Cloud & DevOps: Bitbucket Pipelines CI/CD, Firebase, AWS (S3, CloudFront, Secrets Manager, Lambda), GCP (BigQuery, Cloud Functions, Cloud Logging), Sentry
AI: Google Cloud Vertex AI, Gemini API
Domain: Fintech (corporate cards, payables, BBPS, GST, KYC), edtech, e-commerce

EDUCATION

Master of Computer Applications (MCA) · Amrita School of Arts and Sciences, Kochi **May 2020**
